# Report on HIV Awareness Program

---

Organized by: Government Engineering College, Patan

Department: Women Development Cell

## Details of Seminar

Event Title: HIV Awareness Program

Date: 29th November 2021

Time: 10:30 AM to 12:30 PM

Duration: 2 Hours

Number of Participants: 48

## Objectives of Program:

A guest lecture was organized on HIV Awareness at Government Engineering College, Patan, on 29th November 2021. The session aimed to educate and sensitize students about the causes, symptoms, prevention, and social stigmas associated with HIV/AIDS.

Esteemed speakers from Bhagini Samaj, Patan were invited to conduct the session. They provided in-depth insights into the spread of HIV, misconceptions prevalent in society, and the importance of regular check-ups and counseling.

The session was interactive, with students actively participating in discussions and clarifying their doubts. The experts also shared real-life experiences and highlighted government support and resources available for individuals affected by HIV.

## Outcome

- Raised awareness about HIV/AIDS among students.
- Cleared myths and misconceptions related to the disease.
- Encouraged empathy and responsible behavior among youth.
- Promoted preventive health practices and available support systems.

## Glimpses of the Event.
