

Government Engineering College, Patan
Electronics & Communication Engineering Department

Event Report

**Student visit program for 11th science students of Ojas Vidyalaya at GEC,
Patan**

Title	Student visit program for 11th science students of Ojas Vidyalaya at GEC Patan
Date and Time	7 th March 2026, 12:15 P.M. onwards
Mode of Conduct	Offline Mode
Venue	EC Department Lab 201, Government Engineering College, Patan
Organized By	Electronics and Communication Engineering Department, GEC Patan
Objective	To strengthen alumni-student interaction and provide career insights

Objective

To provide students with a practical understanding of engineering concepts and expose them to the facilities and opportunities available at GEC Patan.

Description

The Electronics and Communication (EC) Department of Government Engineering College (GEC), Patan organized an educational visit for the students of Ojas Vidyalaya, Patan. During the visit, students were introduced to various laboratories, instruments, and ongoing academic activities of the EC department. Faculty members explained basic concepts of electronics, communication systems, and their real-life applications. The students also observed demonstrations of different electronic equipment and experiments, which helped them understand how engineering principles are applied in practice. The visit aimed to inspire young students towards science and engineering education while providing them exposure to the academic environment of an engineering institute.

Outcomes

- Students gained insight into engineering disciplines and career paths.
- Exposure to practical applications of science concepts.
- Interaction with GEC Patan students and faculty.

Recommendations

- Encourage students to participate in engineering fairs and competitions.
- Plan similar visits to industries and research institutions.

Feedback

- Students appreciated the hands-on experience and guest lecture.
- Suggestions for more frequent visits and longer duration.

Glimpse of the Event
