GUIDANCE TO STUDENTS

CONCLUSION

- ❑ As the event was aimed to aware the students about recent advancement in technical education and we successfully meet the prerequisite of the event at the end of day. Any technical institution must focus in the direction, where we can invoke the technical capability of students. This was our small but important step toward that direction.
- ❑ This time we introduced one new concept, that senior students can also put their projects for better exposure before expert and faculties to incorporate advance inputs in their projects. We got good response in that direction and hope for still more intensify response from senior students in upcoming open houses.
- ❑ Students from all the branches (Computer Science & Engineering, EC, Electrical 1st Semester) participated with great enthusiasm and presented their creative ideas before the experts and faculties. At the end of day, participant felt confident and enrichment of advance knowledge that itself reflect the grand success of event.

“May God bless whole world with Peace and Prosperity”
