Highlight of event:

- The event was organized by the **Code Hives Club, Government Engineering College, Patan**, to guide students on building a career in full-stack development.
- Mr. Yash Prajapati shared practical insights on **technology selection, real-world project development, portfolio building, resume preparation, and interview preparation.**
- The session covered the role of **frontend, backend, APIs, databases, and integration** in developing full-stack applications.
- **Topics Covered During Session are:**
 - Selecting the right technology stack
 - Frontend and backend development
 - APIs and application integration
 - Building real-world projects
 - Portfolio development
 - Resume and interview preparation
 - Full-stack development career journey
- Students gained practical career guidance and were encouraged to focus on **hands-on projects, portfolio building, and continuous learning.**

- An interactive **Q&A session** allowed students to clarify their doubts regarding full-stack development and career preparation.
- The event concluded with a vote of thanks to the speaker for sharing valuable knowledge and industry-oriented career insights.
